

REACH Compliance Declaration

Under Regulation (EC) No. 1907/2006 of 18 December 2006, The European Union adopted a regulation on chemical substances known as REACH (Regulation, Evaluation, Authorization and Restriction of Chemicals).

Under Annex XVII of the REACH Regulation, the “Candidate List of substances of very high concern (SVHC) for Authorisation” was published and is updated in accordance with Article 59(10) of the REACH regulation.

Precision Acoustics Ltd has reviewed the list of 235 substances (SVHC) and cross-checked the list against those used in the manufacture of our products. We confirm that, to the best of our knowledge, none of our products contain > 0.1% w/w of any of the aforementioned substances.

Furthermore, Precision Acoustics Ltd hereby confirms that we do not import or manufacture any chemical substance or mixture in quantities equal to or greater than 1 tonne per year, and therefore we are not required to register any substances we use with ECHA (European Chemicals Agency).

Under the European Union (Withdrawal) Act 2018, the EU REACH regulation was brought into UK law on 1 January 2021. As above, Precision Acoustics Ltd confirms that it does not import or manufacture any chemical substance or mixture in quantities equal to or greater than 1 tonne per year, and therefore does not register any substances under UK REACH.
